JUDICIAL SALE OF FARM PROPERTY.

There will be offered for sale by Public Auction by W. M. Washburn at the Postoffice in Stony Plain, Alberta, on SATURDAY, the 24th Day of DECEMBER, 1927, at 2:30 o'clock in the afternoon the following lands: S.W. 118 & N.W. Qr. 7, both in Tp. 52 Rg. 1 W. 5th Mer. reserving mines and minerals in the S.W. Qr. 18 and coal in the N.W. Qr. 7, AND the N.E. Qr. 12 and S.E. Qr. 13 both in Tp. 52 Rg. 2 W. 5th Mer., excepting out of the N.E. Qr. 12 46-100 acres and 327-100 acres for roads and reserving mines and minerals and out of the S.E. Qr. 13 reserving coal, 622 acres more or less.

The property will be offered for sale at an upset price of \$14,450.00. The Vendor is informed of the following particulars: The property is about 10 miles southwest of Stony Plain and about 3 miles from the nearest school. About 230 acres are under cultivation, there is a well, and the land is fenced with 2 and 3 wires. There are the following buildings: 1 1/2 storey house 20 x 36, log, boarded up, single roof; log granary 24 x 32 single roof; horse stable 22 x 32; cow stable 22 x 32; hen house 10 x 24.

Terms—The purchaser will pay down at the time of sale ten per cent of the purchase price to the vendor's solicitor and the balance into Court within 60 days of the date of sale without interest, or in the alternative 10 per cent cash as aforesaid, and the execution of a mortgage for \$2000.00 for five years, with interest at 7 per cent per annum, and the remainder of the purchase price to be paid into Court within 60 days from the date of sale without interest.

In other respects the terms and conditions of sale will be the standing conditions of sale of the Supreme Court of Alberta; as approved by the Master.

For further particulars apply to F. W. Landy, Barrister, Stony Plain, Alberta.

Dated at Edmonton, Alberta, this 25th day of November, 1927.

M. C.

LOCAL NEWS.

Henry Gabel left last week for Leaman, and Mr. "Rinley" Heichen has gone to Edson.

Curling on the local ice has commenced, and the picking of the rinks and skips is now under way. This promises to be a most successful season for the local club, as a record roll of members has been secured.

Saturday night was a free-for-all at the local skating rink, the ice being in good enough shape to be given a try-out. This season there will be skating every evening. The Senior hockeyists will have three practice nights, from 6:30 to 8; the Juniors the other three evenings. At 8 p.m. the rink will be thrown open to all comers.

A Bazaar and Sale will be held in the Town Hall, on Sat. next, Dec. 3, at 2 p.m. Plain sewing, fancy work, grab bag, home cooking, afternoon tea; with a 6 o'clock supper.

Another record was made at the local stockyards last week by Stony's hog buyer, Mr. A. Meredith. At 10:40 on Thursday there wasn't a porker in sight; at 2 p.m. August had received and paid for 200 of these—200 hogs in 200 minutes.

The call has gone out for a reorganisation of the Stony brass band. A meeting will be held the latter part of the week in Semiquaver hall, when practice nights will be agreed on by those who intend playing. It is hoped to make this a strong organisation, and this can only be accomplished by the members attending the practices regular.

Christmas cards and Personal Greeting cards; all prices and colors; at the Drug Store.

Attention is drawn to the advt. of The Ford Motor Co. of Canada, on page 3, giving the cities in which their new car will be on display tomorrow. Edmonton is one of the cities named.

There will be R. C. services in the town hall Sunday morning next at 11.

Toga Councillors meet in Stony Plain tomorrow, Fri., Dec. 2d.

On Thurs., Dec. 8th, Holborn U.F.W.A. are holding a bazaar and dance. Guesses will be sold for 25c. on a Star quilt, the one guessing the correct number of beans will be the winner. Tyrrell's orchestra will furnish the music.

If your eyes bother you, or you suffer from headaches, why not have your eyes attended to by an expert? M. M. Mecklenburg, eye specialist, will be in Stony Plain on Friday, Dec. 16th.

Cuticura Baths Best for Children

Teach your children to use Cuticura Soap because it is best for their tender skins. Assisted by occasional applications of Cuticura Ointment to first signs of irritation or dandruff, it keeps the skin and scalp clean and healthy. Cuticura Talcum is cooling and soothing.

Sample Soap Free by Mail. Methods Used By Travellers To Determine General Direction Both By Day And By Night

When travelling in unfamiliar country, it often becomes necessary to determine direction. Most people are able in a general sort of way to do so in the daytime by means of the sun if it is shining, or at night (speaking more particularly of the northern hemisphere), by means of the north star.

Some people seem to possess the faculty of telling direction by means of the sun with a remarkable degree of accuracy. To those who have difficulty in this regard, the well-known method of making use of the watch in connection with the sun may be employed. This is effected by holding the watch level and pointing the hour hand at the sun and accepting the midway between it and the figure 12 on the dial as the due south direction.

This will not give direction accurately but will be good enough for most practical purposes. The sun appears to go around the earth in a clockwise direction (to those in the northern hemisphere), making the complete circle in twenty-four hours. The hour hand of the watch makes a revolution once in twelve hours, or, in other words, moves twice as fast as the sun appears to travel. Assuming that the sun is due south when the hour hand of the watch is at 12 noon the working out of this simple method becomes quite apparent after a little consideration.

For two reasons the method is not absolute. One is that at 12 noon by the watch, except on four days in the year, the sun is not exactly due south but is constantly varying in its position. Another reason is that the sun does not move around the horizon on a level with the hands of the watch but slantingly, moving up in the morning and down in the afternoon. Thus it is the sun may appear to move further during an hour near the middle of the day than during the same period of time in the morning or the evening.

At night the position of the Pole Star, or Polaris, is an infallible guide. This star may readily be picked out in the sky by using the two outer stars of the Great Bear constellation or "big dipper" as it is often called as pointers. The North Star also forms the end star of the handle of the Little Bear constellation of the "little dipper" but this cannot always be made out even when the stars are shining on account of the fact that they are so much less magnitude.

When travelling in strange country, through the woods, etc., it often happens that one wishes to know the direction when the sky is overcast with clouds. Some people who are familiar with the woods can read the signs from the evidences of Nature. Thus the southern sides of certain kinds of poplar trees are commonly whiter than the northern sides, due to the action of the sun. In certain trees, more moss will grow on the north side than on the south. Some Indians, it is claimed, can tell direction in a grassy country by the way the grass lies due to the prevailing winds.

But these methods, when one is lost on a cloudy day in a strange district or particularly in the woods, are more likely than not to add to one's confusion. How much better would it be in this case if one were provided with a good magnetic compass and a good map of the district as well, and knew how to use them both.

The Topographical Survey, Department of the Interior, are engaged in the task of publishing such maps. One series, that known as the National Topographical Series, is intended eventually to extend from one end of Canada to the other. They also have collected a great deal of information regarding the true direction of the magnetic needle, since the magnetic needle does not point true north but more or less east or west at different places. The map sheets above referred to and publications embodying the information collected regarding the magnetic needle are available to the public in each case at nominal cost.

Soothsayers of East India break eggs against a board and study the size of the bits of shell and the positions into which they fall to foretell events.

Warm Year In Far North

Northwest Passage Open This Year Which Is Unusual

The Northwest Passage through Franklin Straits and Peel Sound was open this year, according to Bishop I. O. Stringer, Bishop of the Yukon, who, with Mrs. Stringer, reached Vancouver en route to Toronto to spend the winter.

Bishop Stringer, accompanied by his wife, left for the far North by way of Edmonton last June, travelling down the Mackenzie River by gasoline schooner and visited Akavik, Halliwell Island, Bernard Harbor, on Coronation Gulf and Cambridge Bay on Victoria Island.

The summer was a particularly open one and seamen stated that the Northwest Passage through Franklin Straits and Peel Sound was open this year, Bishop Stringer declared. Unfortunately there was no one to make the trip.

The Eskimos estimated it would be at least another ten years before a similar opportunity occurs to make this trip.

A One-Piece Frock Of Youthful Charm

This chic one-piece frock will be found quite simple to fashion; yet a style very smart in every detail. The front of the skirt has three set-in plaits to give the necessary fullness, and the deep V front has a becoming vesice and round collar. The long light-fitting sleeves are finished with turn-back cuffs, and the waist is girded with crushed ribbon fastening with a buckle in front. Buttons—so important this season—adorn the front, and frilling adds a dainty finish to the collar and cuffs. No. 1479 is for misses and small women, and is in sizes 16, 18 and 20 years. Size 18 (36 bust) requires 3½ yards 39-inch material, or 2½ yards 54-inch, and 2½ yards 1-inch ribbon for frilling, and 1½ yards 6-inch ribbon for belt. Price 20 cents the pattern.

The designs illustrated in our new Fashion Book are advance styles for the home dressmaker, and the woman or girl who desires to wear garments dependable for taste, simplicity and economy will find her desires fulfilled in our patterns. Price of the book 10 cents the copy.

Youngest Chancellor

Rev. Dr. J. A. O'Reilly, whose appointment as administrator of St. Mary's pro-cathedral at Hamilton, Ont., makes him, it is said, the youngest chancellor of any Roman Catholic diocese in Canada.

Improving Feeding Value Of Hay

Mixture Of Sweet Clover And Western Rye Grass Give Good Results

Sweet clover and western rye grass have given satisfactory results when grown in combination at the Scott, Saskatchewan, Experimental Station. The mixture improves the feeding value of the hay. A good aftermath, principally of sweet clover, is always secured from the first crop after sowing. Sweet clover, however, does not appear in the second crop except where the seed failed to germinate in the first year. It has been objected that the sweet clover often matures earlier than the rye grass. On the other hand it cures more easily when mixed with rye grass than when grown alone.

Stop, Look, and Listen

A farmer of Red Cloud, Neb., sat in his stalled driver on a railroad track and glowered at the freight train that bore down upon him. There was a shrieking of brakes and the train slid to a stop with the pilot only a foot from his car. When the engineer and fireman clambered down they were not met with expressions of thanks. "What's the matter with you fellows?" demanded the farmer savagely. "Didn't you see me?"

Jack—"How did you come to marry a girl you didn't particularly care for?"

Tom (gloomily)—"I attribute it to the fact that she wanted me worse than I didn't want her."

Government Sending Patrol To Northern Area Set Aside As Sanctuary For Musk-Ox

Preparing For Dog Derby

Annual Race At The Pas Will Be Held In March

Preparations for the 1928 The Pas dog derby, a 120-mile event which attracts international attention, now are under way and "mushers" of the north country, many of whom have gained victories in the United States and Canada, are preparing their huskies for the annual training grind which precedes the running of the northern classic.

The derby, held in conjunction with The Pas winter carnival, will be held in March 13 to 15, inclusive, 40 miles a day being travelled by the racers over a course on the Saskatchewan River.

D. M. Stitt has been re-elected president of The Pas Dog Derby and Winter Carnival Association, and he and his executive will endeavor to have entries for the derby from both Canadian and American districts.

An endurance race of 100 miles—50 miles a day—for "commercial dog teams"—the huskies who pull the supplies for the hunters and prospectors—will be a feature of the 1928 carnival.

Five teams from Northern Manitoba will compete in eastern dog classes this winter, having entered for the derby in New Hampshire, Quebec and Montreal. The entries are Emil St. Godard, Leo St. Godard, "Shorty" Hunkle, Earl Brydges and Harry Osenky, all of whom have wonderfully fast teams.

Peace River Finest Territory

The Peace River block is the finest territory in Canada, and its people were never so prosperous as now, declared J. Newman, who has a 320-acre farm there. "Settlers are continually pouring in, the population having almost doubled in the past year," he added. He thought there were too many Central European immigrants and not a sufficient proportion of British newcomers.

Schoolgirl Was Generous

Scholarships she won were given away by a Welsh schoolgirl to school-fellows who were in less fortunate circumstances than herself. The girl, Miss Doris Morgan, of Penegill, Town, came out top girl in the county in recent examinations and was awarded several scholarships, value £250, one being a State scholarship confined to Wales.

To make an intensive examination and patrol of the area East of Great Slave Lake, recently set aside as a sanctuary for musk-ox and other wild life, the Department of the Interior is sending out an experienced explorer having an intimate knowledge of the animal life of the region. Early in January W. H. R. Hoare of the North West Territories and Yukon Branch, will leave Ottawa for Edmonton on this first leg of his journey to the 15,000 square mile reserve lying on the Thelon and Hanbury rivers in the North West Territories. From Edmonton Mr. Hoare will continue by rail to Waterways, the end of steel, and there he will begin an 800-mile journey by dog team to the proposed location of his base camp on the site of Fort Reliance, about 35 miles southwest of the westernmost corner of the sanctuary. About a month will be occupied in the trip to Fort Reliance, and it is not expected that Mr. Hoare will return South before the end of 1928 or the spring of 1929.

Accurate information has long been recognized as the basis of efficient and economical administration, and it is for this reason that the Department of the Interior is having careful examinations made of this part of Canada's vast Northland before undertaking the expenditures necessary to conserve and develop the resources therein. During his patrol Mr. Hoare will take a census of the wild animals in the reserve, indicating as far as possible the herds being made by wolves and other predatory animals.

He will also report on what measures should be taken to protect the big game therein, particularly the musk-ox and the caribou; on the number of wardens that will be required to properly patrol the area; and on the best locations for wardens' cabins. There are no permanent residents, either native or white, in the sanctuary, and the area is, as far as is known, seldom visited, nevertheless observations will be made of the number, if any, of Eskimos and Indians visiting the area and the seasons at which they appear.

For the purpose of equipping this patrol six Eskimo sled dogs were brought from Pond Inlet, Baffin Island, by the 1927 Canadian Arctic Expedition. Sled dogs from the Eastern Arctic are noted for their strength and endurance and on that account are rated highly by travellers in the Far North. A thick growth of fur close to the skin protects the Eskimo dog from the cold winds of the Arctic regions and makes him most suitable for work in the open expanses of the great Northern Plains.

On the journey in Mr. Hoare will be joined by a game warden at Fort Smith, the local administrative headquarters of the North West Territories. The warden will accompany Mr. Hoare during the patrol and if it is necessary will bring a team of dogs to help in moving the equipment to Fort Reliance. Should the return trip, late in 1928, or early in 1929, be made via Fort Smith, the Eskimo dogs will be left there for the use of the wardens on patrol work.

Oat Straw For Steers

Shows That Steers Can Be Profitably Fed On Oat Straw

Tests to determine the feeding value of different roughages for steers have been made at the Scott, Saskatchewan, Experimental Station. The steers used in the experiment were divided into four lots, one lot receiving only straw as a roughage and the others oat straw with prairie wool, western rye grass hay and oat chaff. The amount of meal fed to each lot was the same and consisted of a mixture of oats and barley with 2.5 per cent oil cake meal. The lot fed oat straw without other roughage gave a considerable higher profit than the other lots. The lot fed Western rye grass in conjunction with oat straw gave the smallest returns. The experiment, which has now been carried on for two years, shows that steers can be profitably fed on oat straw provided a good grain ration is used. It is an important fact for a farmer who has an abundance of good oat straw that he does not need prairie wool, western rye or oat chaff to feed in conjunction with it.

Sir Henry W. Thornton, Chairman and President, Canadian National Railways, photographed at Montreal on his departure for Mexico to inspect the Mexican government railways.

BUILDING OF NEW MANITOBA RAILWAY MARKS IMPORTANT NATIONAL DEVELOPMENT

WORLD HAPPENINGS BRIEFLY TOLD

The Dominion Government will, it is expected, shortly be in the market for a loan of possibly around \$50,000,000. Hon. J. A. Robb, Minister of Finance, now has the question in hand.

A ton of counterfeit Soviet bank notes, with a face value of many millions rubles, was discovered and confiscated by police in a printing plant at Frankfurt-on-Main.

The total number of persons killed by automobiles in the City of New York for the first nine months of 1927 was 774, as compared with 730 for the same period of 1926, showing an increase of 35.

The New York World, Democrat, says that the politicians of that state have been highly mystified by the upspringing of a great deal of quiet activity on behalf of Vice-President Daves as a possible candidate for the Republican nomination for president.

The Companionable Smock

There was a time not long ago when the smock was identified as the working costume of an artist, but of late it has been adopted as office uniform, house frock, and for every type of practical wear. Women find them more convenient to slip on and off, and they are very becoming, besides lending themselves to a variety of designs in cotton washable fabrics. The smock presented here is voted one of the attractive models. It is fashioned of cotton broadcloth in plain color, with collar, revers and large pockets of printed crotone in a becoming design. There are gathers over the bust, and it has long set-in sleeves. No. 1330 is in sizes 34, 36, 38, 40, 42 and 44 inches bust size. Size 36 bust requires 3 yards 36-inch plain material, and 3 1/2 yards figured. Price 20 cents the pattern.

Many styles of smart apparel may be found in our new Fashion Book. Our designers originate their patterns in the heart of the style centres, and their creations are those of tested popularity, brought within the means of the average woman. Price of the book 10 cents the copy.

W. N. U. 1709

The Government of Manitoba has reached an agreement with the Dominion Government and the Canadian National Railways whereby construction will be begun immediately upon a line of railway, 55 miles in length, north of the city of Winnipeg. The Government of Manitoba, instead of guaranteeing the bonds of a railway through the region, as previously planned, will make payments not exceeding \$100,000 annually, for a period of five years, towards meeting possible deficits incurred in the operation of the line during the development period through which the territory must necessarily pass.

The Whitney mining interests, who are developing the Flin Flon property, which the new railway will reach, have agreed to contribute the sum of

\$250,000 immediately, towards the cost of the railway in order that arrangements can be made to build the line without delay. The mining interests have also contracted to build and operate a smelter at the Flin Flon property capable of treating three thousand tons of ore per day, and will proceed with a large water power development, capable of producing 270,000 horse power, which power will be of the utmost value in the operation of other mining properties, or pulp and paper mills. An initial investment of \$18,000,000 will be made in this section of Northern Manitoba by the Whitney interests, an amount which will later be increased. Ore has been blocked out or indicated by diamond drilling to the value of \$200,000,000 at the Flin Flon and there are other large mineralized deposits in the general area having a total ore value estimated at an additional \$200,000,000. The new railway will extend north from Mile 8 on the Hudson Bay Rail-

way to the Flin Flon property. Its route closely paralleling the Saskatchewan boundary, to a point where the height of land is reached, and the cost is estimated at \$2,500,000. A railway freight rate basis has been established.

The grants of the provincial government and of the mining company will go to the Northern Manitoba Railway, but this company will be entirely controlled by the Canadian National Railways, which will receive the authority of the Dominion Government to lease and operate the road, paying interest on the actual construction cost. As indicated, the Manitoba Government had agreed to guarantee the bonds of the Manitoba Northern, but after conference at Ottawa, between the Hon. Charles A. Dunning, Minister of Railways and Canals, Premier Bracken, and representatives of the Canadian National Railways and the mining interests, it was decided that the plan now to be adopted would per-

mit the important national development to proceed without delay. The work of construction will, it is expected, start immediately after the first of December, on which date the Whitney interests exercise the option they hold from the Mining Corporation of Canada. Work will be pushed rapidly ahead, in order that steel may be laid in the winter of 1928 and supplies taken in for the erection of the smelter and the power plant.

The Flin Flon is only one of many mining properties in this general area and it is estimated that there are ore bodies in the region, comprised largely of zinc and copper, having a total value of \$500,000,000. The ore is not of as high a grade as is to be found in some other fields and calls, therefore, for a larger expenditure on labor and machinery, with smaller returns per ton of ore. The ore deposits in Northern Manitoba are, however, very much larger than those yet disclosed in any section of Eastern Canada.

Bad News For Students

German School Board Has Equipped Buildings With Baths

Melancholy days have come for the school children of Russelsheim, Germany. The School Board has equipped all of the school buildings with baths and has ordered weekly ablutions for every pupil.

Protests were registered by indignant parents that their off-springs never denied the proverbial Saturday scrub, but the stern members of the board refused to change the ordinance. Teachers have been instructed to inspect noses and ears to see that the job is done properly.

Long Standing Asthma. Many have suffered so long from asthma and have tried so many so-called remedies they think that there is no real help for them. They should read the letters received by the manufacturers of Dr. D. D. Koller's Asthma Remedy from hundreds of cases once as desperate as their own. Even in long-neglected cases this famous preparation brings prompt help.

"Did you stay long on your holidays in the country?"

"Five or six weeks. Just long enough to dirty a shirt!"—Pages Gates, Yverdon.

Fight For Speed Record

Rivalry Between Britain and U.S. Is Becoming Intensified

A British car with two engines of 20 h.p.—the size that thousands of British motorists use in their everyday cars—is being designed and built in secret to attain a speed of 250 miles an hour.

It is so advanced that the makers, the Sunbeam Company of Wolverhampton, expect to have it ready at the beginning of May. Its trials may be on a secret new course in England in the first week in June.

The car has been designed by Louis Coatalen, engineer-in-chief of the Sunbeam Company, and it is highly probable that "Bill" Guinness, founder and designer of the famous K.L.C., sparkling plug, and one of the most renowned of British racing motorists, who retired a few years ago, will drive the machine.

Next year is likely to witness the most tremendous fight for speed supremacy between America and England on land and in the air. It was stated recently by an American engineer at the motor show that American designers have already got to work on an aeroplane with a theoretical speed of 340 miles an hour.

Cuts and Bruises Disappear.—When suffering from cuts, scratches, bruises, sprains, sore throat or chest and any similar ailment, use Dr. Thomas' Eucalyptic Oil. Its healing power is well-known in every section of the community. A bottle of Dr. Thomas' Eucalyptic Oil should be in every medicine chest ready for the emergencies that may always be anticipated.

It has been estimated that the earth has maintain a population of 6,000,000,000, a total which will be reached about 2100 at the present rate of increase.

Minard's Liniment For Colds.

Christmas Seals Campaign

Manitoba Sanitarium in Need Of Funds To Carry On Good Work

This is the first year of a Canada-wide Seal Sale to fight tuberculosis. The Manitoba Sanitarium, Nisette, is using this method to raise funds for carrying on the work of combating this dread scourge. Christmas seals have become an institution, almost like old Santa himself, and their use grows more popular each succeeding year. Appealing particularly to the people of Manitoba, the Nisette Sanitarium is asking for a wide-spread use of these seals at this coming holiday season. The Christmas seals sell for one cent each. By sending a dollar to the Sanitarium and ordering a hundred seals, you will then be able to scatter a hundred health messages, and each dollar's worth provides nearly ninety cents for prevention of disease in Manitoba.

In many homes Christmas seals will mean only wretchedness and pain; Tuberculosis has wrecked tired bodies and dulled and hearts to the happiness and joy of the Christmas season. The more seals you buy the more these people can be helped, the more can tuberculosis be prevented from taking root in other homes.

Easy To Identify

Anonymous letter writers frequently print their names in block letters, thereby expecting to foil recognition. The hand writing expert given their real hand writing can identify the block letters at almost a single microscopic glance. It was also stated that almost invariably the anonymous letter writer has a criminal record or criminal tendencies. He is never normal.

It isn't particularly consoling to the would-be hunter to be told that the other hunter mistook him for.

Dizzy, Light-Headed Specs Before the Eyes

Health Restored by a Simple Liver Tonic

In Smith Hill, Bermuda, there was an interesting case—that of Matthew McDonald. His whole body was affected by trembling—had dizzy spells and was light-headed. His general health was poor. "My health was very bad. My stomach and liver were much upset. I had vague pains in my back. My shoulder blades ached. Black speck floated before my eyes and I despaired of getting well. The doctor at my chemist's shop recommended me to use Dr. Hamilton's Pills. They made me well and strong. Now I sleep well, eat well and have strong nerves. I recommend my friends to use Dr. Hamilton's Pills."

Half-sick men and women who scarcely know what ails them, will be given a new lease of life with Dr. Hamilton's Pills. Depressed spirits disappear, headaches are forgotten, appetite increases, blood is enriched, pains at the base of the spine are stopped, the nerves are toned up, amputation to work is increased, and day by day the old-time health and vigor return. Get a few 25c boxes from your druggist.

Yukon's Tourist Attractions
Yukon has been known in the past almost entirely as a mining country but the tourist traffic is assuming a prominent place among the commercial assets of the Territory. The unique natural attractions, magnificent scenery, bracing atmosphere, continuous daylight during the summer season, and improved facilities for the tourist are the reasons for the rapid growth in the number of visitors.

Judging from bids for stands at the ocean resort at Brighton, England, ice is considered the most popular purchases by holiday-makers here.

Here and There

Reports received from various guides in New Brunswick state that partridges have increased; moose are plentiful and deer greater in numbers than last year. On the Little Tobique River beaver are more numerous this year, but not elsewhere.

Alberta's wheat crop is so good that D. C. Coleman, Vice-President of Western Lines of the Canadian Pacific Railway, estimates it will reach 180,000,000 bushels. The record crop so far is 166,000,000 bushels, produced in 1923.

Rosebank Pride—71118, an Ayrshire cow owned by George Pearson & Sons, of Watford, Ontario, has just scored a Canadian and a world record for milk production, having given 23,841 lbs. of milk, 978 lbs. fat with average test of 4.14 per cent. Her five years' milking record is 87,843 lbs. milk, 3,633 lbs. fat.

Aviation history is being made nowadays. Canadian Air Board officials announce that enquiries have been received from 15 cities in Canada desirous of forming flying clubs. At the same time, Philip Season, Under-Secretary for Air in the British Government, reports that the first of the two huge 5,000,000 cubic feet dirigibles being built in England for inter-imperial commercial communication will be completed in about two years and that the maiden trip will likely be to Canada.

Nova Scotia has won the Agent-General's Challenge Cup at the Imperial Fruit Show held in Manchester, according to official advice by cable. Nova Scotia obtained the greatest number of points in the overseas section of the show, the basis for award being 4 points for each first prize, 3 for each second, 2 for each third and 1 for each entry receiving 75 per cent. Nova Scotia had 48 entries and won 7 firsts, 8 seconds and 5 thirds.

The establishment of a game sanctuary in western Nova Scotia was announced recently by W. L. Hall, Attorney-General of the Province. The reserve covers an area of approximately 200 square miles and contains fine scenery, majestic rivers and forests and lakes in which trout and wild life are sure to thrive. The new sanctuary will take in the chief waterways of Lake Rossignol, Shubenubee River, Jordan, Sixth and Fifth Lakes.

According to the latest Bulletin of the Bureau of Agricultural Economics, Washington, Canada ranks next to British India as to tobacco produced in the British Empire. "Stimulated by the preference granted Empire-grown tobaccos in the British market since September 1st, 1919," says the report, "the production of tobacco in Canada has increased from 14,232,000 pounds in 1918 to 26,884,000 in 1926; Ontario furnishing about 75 per cent. of the product and Quebec most of the remainder."

Gasoline has done all the damage possible to the horse industry in Canada, according to W. J. McCallum, horse importer of Brampton and Regina, who arrived in Canada recently on board the C. P. liner "Metagama." Mr. McCallum brought with him over 100 champion stallions which he purchased throughout the British Isles, France and Belgium during the summer months. He will take the valuable shipment west this winter and will dispose of them throughout the prairie provinces. Mr. McCallum is optimistic regarding the future of the horse industry in Canada and states that more pure-bred animals are needed on this side of the water.

Ford The NEW CAR

ALL THAT engineers have learned, all that millions of owners have experienced in nearly a quarter of a century, have made possible this car which is today as far ahead of its time as was the famous Model T in 1908.

Sixteen million automobiles, serving their owners in jungle and desert, on mountain and plain, on boulevard and highway, were the test cars that have made this new automobile possible. Its advent marks a new epoch in automotive engineering in point of inbuilt quality—niceties of mechanical design, lavish use of the finer metals, precision in delicate machining processes. Nowhere in its construction has there

been alighting of either major essentials or minor details. From its outermost hub-cap to its innermost bearing, the new Ford car epitomizes engineering skill to a degree unexcelled in the annals of motor car manufacture.

This entirely new car surpasses the accepted standards of light car accomplishment; sweeps aside all boundaries of price class; establishes a new standard of acceleration, speed, power and smoothness that heretofore has marked only expensive cars as fine cars.

Yet Ford precision in large scale production, unparalleled in the history of automotive manufacture, places this car within the reach of every purse.

An advance showing of the New Ford Car will be made Friday, December 2nd, in the following cities:

Halifax	Peterboro	Winnipeg	Saint John	Toronto
Regina	Quebec	Hamilton	Saskatoon	Sherbrooke
Brantford	Moncton	Montreal	London	Calgary
Ottawa	Windsor	Edmonton	Kitchener	Fort William
Vancouver	Victoria			

As rapidly as increasing production permits these public showings will be extended until all of the 736 Ford dealer points have been covered.

If you live in one of the cities listed above, visit the exhibit of this New Car. At other points, see your local dealer next Friday. He will give you complete specifications, prices and an excellent conception of its unusual features.

The High Cost of Weeds

Actual evidence of the loss in value of weed-infested farm land is shown in an extract from the report of an Inspector visiting a certain farm for leasing purposes. In his report, this Inspector says: "It is badly infested with now thistle as are all the farms in the neighborhood. I have valued \$1,000 less than I would if clean of this weed."

This \$1,000 represented 12 per cent. of the value of the farm. Many Inspectors would have discounted the value to an even greater extent.

The question naturally suggests itself: What, Mr. Farmer, is your weed crop costing you? You may not be contemplating a sale of the land, nor considering the placing of a loan on it. For the time being the actual value of the land may be of no particular interest to you, except from a taxation standpoint. Nevertheless, the question is none the less pertinent: What is your weed crop costing you?

If you are using dirty seed, it is costing you something for seedling. Let it be assumed that the weeds are already there and seed themselves and that the cost of seedling can be eliminated. But you have to cut the weeds along with the grain; that costs something. You have to thresh the weed seeds along with the grain; that costs something more. You haul many pounds of weed seeds along with the grain to the elevator; more cost. You pay elevator charges on the total weight; another cost. You pay freight on the weed seeds as well as on the grain; extra cost. Finally, you pay to have the weed seeds cleaned from the grain; added cost. These are direct outlays. Have you ever taken time to figure up those costs? Their total would surprise you. And, by the way, having borne all those costs, what sum of money did you realize for the weeds thus raised and marketed by you?

But, apart from these direct costs, what was the total of the indirect cost of your annual weed crop? How much life and nutriment did these weeds extract from your land? How much moisture did they consume which would have given additional strength to your grain? How many extra bushels of wheat or oats or other grain per acre would you have realized from your land if it had been clean of weeds, and you had been producing grain only instead of an unmarketable mixture of grain and weed seeds?

But, you argue, there is another side to the weed account in your farm ledger. It costs something to get rid of weeds and to keep land free of them. Perfectly true. And if you have permitted your land to become badly infested, the initial cost of weed eradication will be heavy. In fact, you may have hastily concluded that it is cheaper to go on raising weeds and grain together, than to make a fight against the weeds. It is well to remember, however, that year by year the weeds will become more numerous and the grain smaller and smaller.

Then, too, the day may come when you will want to sell the farm, and you will discover that a weed-infested farm invites few buyers and a low price. Furthermore, it is safe to predict that if you continue to grow weeds, and thereby automatically reduce your grain yield, the time is coming when you will be forced to apply to a Company for a loan. Then Mr. Inspector will report that he values your land at from 10 to 20 per cent. less than he otherwise would if it had been free of weeds.

The most expensive and the least temerarious crop any farmer can raise is a crop of weeds, yet thousands of Western farmers are engaged in this losing business. Why? Because they have never taken the time to reckon up the cost, or because of selfishness, or downright laziness. Possibly ignorance is the cause, the farmer failing to realize that allowing weeds to grow and flourish on his land means just as much work for himself in the long run as is involved in fighting them, while the cost of growing weeds is many times greater than the cost of eradicating them.

And if the cost and loss to the individual farmer is so great, it is, in the aggregate, to the municipality, the province, and the Dominion so enormous as to stagger the imagination.

Fight weeds as you would fight fire. Fight even harder, because you can insure property against fire, but not against weeds. The only insurance against weeds must be provided by your own labor. It will prove one of the best payings of all your farm efforts.

Want Canadian Birds For Field Museum

Expedition From Chicago Seeks Extensive Exhibit in B.C. British Columbia will probably have an extensive exhibit of her northern bird life in the Field Museum in Chicago as the result of the work of John Dordos Field Museum Alaska Arctic expedition which is working in northern waters this summer. Ashley Hise, a Canadian, is one of the ornithologists with the party. The work is being carried out under the direction of Mr. Dordos in a private yacht built especially for the purpose.

Blister.

Prevent any chance of infection by using Minard's. Heals also.

W. N. U. 1691

"We intend to spend some time in northern British Columbia waters, thence along the coast to Alaska and are particularly interested in obtaining specimens of Canadian birds and animals to complete our North American collections."

Italian Flier Remembered A monument to the fame of Francesco de Pinedo, Italian four-continent flyer, has been raised by aeroplane pilots at Miller Flying Field, Staten Island, in the form of the "Hotel de Pinedo" built from the packing case in which the Santa Maria II. was shipped to the United States. The "hotel" is 10 feet by 20 feet, is covered with the tan paper that lined it on its ocean voyage, and is fitted up with beds for 10 pilots.

Canada stands second in the number of telephones in use and in the production of automobiles and lumber, third in gold and silver production, seventh in steel production, and tenth in that of coal.

England Is Founding New Naval Museum

Valuable Exhibits Have Been Handed Over to Admiralty. A National Naval and Nautical Museum, the first of its kind in England, is to be founded at Queen's House, Greenwich.

A magnificent start has been given to the new venture by the Lords Commissioners of the Admiralty, who will hand over the entire contents of the Royal Naval Museum, including: The Chatham chest, dating back to the Armada; Drake's astrolabe; Gunpass and dipping needle of Captain Cook; The Franklin relics; Models of the battle of Trafalgar; Uniform of Sir Charles Napier; West collection of Nelson relics; Admiralty scale models of British battleships from 1670 to 1870; Nelson relics and other treasures now in the Painted Hall.

There will also be a collection of plans of ships built for the navy from the middle of the XVII century, a series unequalled in any other country, and models will illustrate the progress of naval construction from the Devonian to the Dreadnought.

THE NURSING MOTHER

Often Finds Herself Weak and Feeling Worn-Out.

The nursing mother more than any other woman needs rich blood and plenty of it. The demands upon her health are many and severe. Household duties and the care of her children exact heavy toll. And while hurried meals, broken rest, and indoor living tend to weaken her, so wonder she is often indisposed through weakness, headaches, backaches and nervousness. In this condition the blood will always be found weak and watery, and relief will come only through enriching the blood for this purpose. Dr. Williams' Pink Pills is the best blood-making tonic known. Through their use many weak, ailing wives and mothers have found new health and strength. As an example of this Mrs. Sarah Corlies, Elmontown, N.B., says:—"While nursing my baby I became run down, very weak and nervous. My head ached all the time and I was not able to do my work. I had often read of Dr. Williams' Pink Pills and began using them, and what a blessing they proved. Before I had used a half dozen boxes I felt like a new person, and by itself, continued use for a while I was entirely restored to my former health and strength. I also began recommending Dr. Williams' Pink Pills to everyone suffering as I did."

You can get these pills through any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

New Regulation Passed

Grain Owners May Now Appeal on Condition and Grade.

A new regulation has been passed by the Board of Grain Commissioners giving the owners of grain the right to appeal on questions of condition as well as to grade of their grain.

The regulation comes into effect on August 1 and is being put into force experimentally at the time and whether it is beneficial or otherwise to the grower of grain. The regulation applies to Port William, Port Arthur, Winnipeg, Edmonton and Vancouver and does not govern cargo shipments.

Hitherto the only appeal possible was against the grade given.

Increases Elevator Capacity

If construction of the new Alberta Wheat Pool elevator is started within a month or so, as expected, it will be ready to begin operations in December. It will raise Vancouver's elevator capacity to 1,200,000 bushels. Six years ago there was only one elevator at that port with 1,250,000 bushel capacity.

The Positive One—"My friend there is no such thing as a useless article, and I challenge you to give me an instance."

The Equally Positive One—"Well what about a glass eye at a keyhole?"

Corns cause much suffering, but Holloway's Corn Remover offers a speedy, sure, and satisfactory relief.

Many a man is kept busy today trying to undo the things that he did yesterday.

All you have to do to stir up trouble is tell the truth on all occasions.

Minard's Liniment for warts and Pimples.

Pa Buzz will get something soon

FLIT spray clears your home of mosquitoes and flies. It also kills bed bugs, roaches, ants, and their eggs. Fatal to insects but harmless to mankind. Will not stain. Get Flit today.

Distributed in Canada by Fred J. White & Co., Limited, Toronto.

Immigrants Pouring In

Population Being Increased at Rate of One Thousand a Day

Immigration to Canada in the month of May this year totalled 23,941, according to a statement issued by the department of Immigration and Colonization. This is an increase of 20 per cent. over May, 1925, when the total immigration to Canada was 19,820; and 79 per cent. over May, 1925, when the total immigration to Canada for that month was 13,353.

Last May there were 8,408 British came to Canada; 2,568 from the United States and 12,020 from other countries, as compared with 7,986 British; 2,063 from the United States and 851 from other countries in May, 1925.

Immigration for April and May of this year totalled 52,282 or almost 1,000 persons per day for the two months.

In May of this year 5,661 Canadians who had gone to the United States intending to remain there permanently returned to Canada declaring their intention of staying in the Dominion. These are not included in the immigration figures.

Miller's Worm Powders seldom fail. They immediately attack the worms and expel them from the system. They are complete in themselves not only as a worm destroyer, but as a highly beneficial medicine for children, correcting weak digestion and restoring the debilitated system to healthfulness, without which the growth of the child will be retarded and its constitution weakened.

Merger of Shingle Makers

Amalgamation of the Shingle Makers of British Columbia.

One of the largest business mergers that has taken place in British Columbia in recent years is that of the amalgamation of the shingle manufacturers of the province. At least 95 per cent. of the shingle manufacturers of British Columbia are now included in the recently formed organization, known as the Consolidated Shingle Mills of British Columbia, Limited.

Each shingle company is interested to the extent of the value of its plant.

The new organization will have supervision over manufacturing and selling.

The amalgamation is along the lines of similar movements in the lumber trade in the United States, the aim of which is to stabilize trade conditions.

Accorded Full Military Honors

A funeral with full military honors was accorded to J. T. Barclay of Lore, Man., one of the three victims of the airplane disaster near Hillburn, Manitoba. The bodies of F. J. Wong and Wm. C. Weaver were forwarded respectively to Ottawa and Montreal, Sask., for burial.

Canada Regains Cup

Canada won the Mackinnon challenge cup by nineteen points from teams representing England, Scotland, Ireland, Wales and other parts of the Empire. Canada thus regained the trophy which she lost to Scotland last year by 34 points.

Generally speaking a pest is a person who, when you politely and disinterestedly ask him how he is, proceeds to tell you.

Testing Ability To Go Without Sleeping

Aviators at Camp Borden Better Record of Lindbergh

Canadian Air Force aviators at Camp Borden have been undergoing tests to determine their ability to go without sleep. It is understood that several believed the record of Capt. Charles A. Lindbergh, when he remained awake on his trans-Atlantic flight, and one flier, Lieut. Dave Harding, former Queen's and Camp Borden rugby player, remained awake and actively on duty for more than 52 hours. Then, it is said, he sat down to read a magazine and, forgetting the contest, dozed off in mid-afternoon.

Fresh Supplies In Demand.

Wherever Dr. Thomas' Electric Oil has been introduced increased supplies have been ordered, showing that wherever it goes this excellent Oil impresses its power on the people. No matter in what latitude it may be found its potency is never impaired. It is put up in most portable shape in bottles and can be carried without fear of breakage.

Upset Long Tradition

A departure from the long tradition of serving fine wines at Gullhaug banquets and receptions to Great Britain's guests occurred at the luncheon to King Fuad. The Egyptian monarch expressed a wish to be served no alcoholic drink, since this was contrary to the ordinance of Mohammed.

The Friend of All Sufferers.

Dr. Thomas' Electric Oil is a valuable remedy to all those who suffer pain. It holds out hope to everyone and realizes it by stilling suffering everywhere. It is a salve that has the blessing of half a continent. It is on sale everywhere and can be found wherever required for.

Tobacco Growing in B.C.

It is reported from Victoria that a company is being formed by the British Columbia to engage extensively in tobacco growing and manufacture.

Keep Minard's Liniment near at hand.

A few years from now we shall probably see mermaids sitting by the side of the trans-Atlantic air highway, selling hot dogs and deep sea souvenirs.

Mothers Should Use

When The Babies Are Cutting Teeth

During the baby's teething time, in the hot summer months, the bowels become loose and diarrhoea, dysentery, colic, cramps and other bowel complaints manifest themselves; the gums become swollen, the teeth form in the mouth, and in many cases the child wastes to a shadow, and very often the teething is fatal.

This is the time when the mother should use Dr. Fowler's, and, perhaps, save the baby's life.

It has been on the market for the past 50 years; put up only by The T. Millers Co., Limited, Toronto, Ont.

REWARD WHEAT BRINGS HONORS TO MANITOBA

Winnipeg.—Representatives of the Manitoba Department of Agriculture and of the Manitoba Agricultural College declined to comment on the report from Ottawa that the grand championship entry of Reward wheat at the Royal Winter Fair, Toronto, was unauthorized.

Eastern press despatches said the wheat was only loaned to the Manitoba Government by the Dominion Experimental Farms, Ottawa, for testing and never was intended for exhibition.

A statement from the cereals division of the Department of Agriculture, Ottawa, said the entry was "unauthorized." It was said that samples of Reward were sent to various farms in the prairie provinces for "testing" on the understanding that the grain would not be exhibited.

The championship wheat was exhibited at Toronto by William Pierce, of the Manitoba demonstration farm of Birtle, Man. At the Toronto grain auction sale the "winning bushel" was purchased by J. B. Almy, of the horticultural branch of the Manitoba Department of Agriculture.

J. H. Evans, deputy minister of Agriculture for Manitoba, commented enthusiastically on the fact that Manitoba grown wheat had won the coveted award.

"Winning of the highest honors is all the more remarkable, an accomplishment when we consider that this has been a somewhat 'off year' for wheat in this province," said Mr. Evans.

Mr. Evans is looking forward to Manitoba grown wheat giving a fine account of itself at the international fair at Chicago.

"I found in looking over samples of the seed sent to the international that the wheat which won the grand championship at Toronto was just by any means the only good wheat available," Mr. Evans concluded.

Orders Coronation Robes

War Lord Preparing To Crown Himself Emperor Of China

London.—A despatch to the Evening News from Tokyo says that Japanese correspondents at Peking report that the Northern generalissimo, Chang Tso-Lin, is now preparing at most openly to crown himself emperor.

Coronation robes have been ordered from Sui-Chow, where the best silk is obtainable.

The Manchurian chieftain, who heads the Northern military alliance will proclaim his era the military mountain era. He will wear China "the mighty expensive empire."

The throne of China became vacant on February 12, 1912, when the country became a republic, although the last Manchu emperor, Pu Yi, retained the title of Emperor of the Manchu Imperial House up to November 5, 1924.

Women and the Senate

Toronto.—It was time women were recognized by appointment to the Senate, declared Miss Grace Hunter, Toronto, at the Ontario Women's Liberal Association executive meeting here. She urged that women logically should have a place on the Senate's committees, especially on the divorce and public health committees. Miss Hunter, who is a lawyer, thought the British North America Act might be interpreted as permitting appointment of women to the Senate.

New Zealand Butter For Canada

Auckland, N.Z.—The Niagara has sailed with 20,000 boxes of butter for Vancouver, this being the largest Canadian shipment so far recorded. The vessel has also 1,870 boxes for Honolulu, and 1,000 boxes for Shanghai. The Niagara is due in Vancouver December 9.

Chinese Bar War Film

Harbin, Manchuria.—Chinese authorities have banned the showing of the motion picture "The Big Parade," after a protest from the German consul. He claimed the film was unfair to Germany.

W. N. U. 1709

Survey Homesteads Along Bay Railway

Some Quarter Sections Now Open For Entry Says Minister Of Interior

Ottawa.—Homestead facilities in the territory adjacent to the Hudson's Bay Railway and the progress of the surveys in that country were outlined by Hon. Charles Stewart, Minister of the Interior and Mines.

The Minister said: "From time to time during the past few years various officers of both the departments over which I preside have made investigations and carried out surveys in the territory adjacent to the Hudson's Bay Railway route. Lands immediately adjacent to the railway from The Pas to Mile 221 have already been surveyed into quarter sections and are now open for homestead entry."

"Data of considerable worth has been secured respecting the location, extent and value of agricultural lands, forests, water powers and minerals. Land and aerial surveys have been projected over much of the region and active progress has been made in mapping the area more completely."

Additional land surveys will be made in any areas that are found suitable for immediate settlement and generally such activities will be undertaken as will enable the government to adequately cope with any development that completion of the railway may bring about."

Hazing Is Punished

Freshman Class Of Guelph Agricultural College Is Fined

Guelph, Ont.—The Ontario Agricultural College faculty assembled to hear the complaint against the freshman class for hazing Edward Deddoe, a young English student of the class. By decision of the faculty and student body, the class was fined \$150 and are ordered to be confined to residence every night with the exception of one night each week, for the balance of the term. An apology from the class must also be given to the offended freshman.

The hazing of Deddoe was an attempt, it is said, on the part of his fellow class mates of the freshman year to inflict student justice on the young fellow for "speaking to the authorities over some minor matter."

Navigation Season Near End

Montreal.—Despite the fact that the St. Lawrence navigation season is rapidly drawing to a close, there are 12 liners and tramp steamers for which grain orders have been received by the Montreal harbor commission. All these vessels are now loading or due to load. It is probable that the orders will be increased with open weather being maintained on the St. Lawrence.

Horsehoes Pitching Contest

Toronto.—An attraction not on the official program occurred during the horse shoe pitching contests at the Royal Winter Fair when Hon. G. Howard Ferguson, Ontario premier challenged Hon. W. D. Ross, Lieutenant-Governor to a match. Stripping off their tail coats, the premier and Lieutenant-Governor played two games to the greatest enjoyment of those present. Mr. Ferguson lost.

Transfer Of Human Eyes

Buffalo, N.Y.—Medical science of the future may make possible the successful transfer of human eyes. Dr. Lucien Howe, of Buffalo, has spent 20 years in research on the problem and has succeeded in shifting eyes from the lower classes of animals to those of the same species which are blind. He believes this eventually may be done with humans.

Took What He Needed

New York.—New York has one robber who is in this sort of a chapp—when he needs \$11.60, that's all he takes. No matter what's in the till. A young man walked into a cigar store, held up the clerk, took \$11.60 from the cash register, counted out \$11.60 and put back the remainder.

"That's all I need," he said.

Soviets Deny Report

Moscow.—The Soviet Foreign office flatly denied reports from Bucharest that Soviet war vessels were on a mysterious cruise in the Black Sea seeking particularly to capture all ships which formerly belonged to the White Russian fleet.

Wins Coveted Prize

Major R. S. Timmis, D.S.O., who recently at Madison Square Gardens, New York, rode Bucephalus, famous charger of the Royal Canadian Dragoons, to victory over thirty of the world's best horses in the jumping event and succeeded in bringing the George III. challenge cup to Canada.

West Wins With Clydesdales

Saskatchewan Captures Majority Of Prizes At Royal Winter Show

Toronto.—Victories were scored one after another at the Royal Show here when horses from Saskatchewan walked away with the big majority of prizes in the Clydesdale class.

Among other classes and in other divisions, entries from the West fared well at the show.

Altogether Saskatchewan entries won grand and reserve championships, the senior, junior and reserve junior championships, the Carlisle and Walker Hosen trophy for the best Clydesdale stallion in the show, five first, three second, three third and ten other prizes for Clydesdale mares. Manitoba won six prizes, and Alberta two. The reserve senior championship went to Don Alda Farms, Todmorden, Ont.

Refused To Meet Miners

Premier Baldwin Declined Interview With Deputation From Wales

London.—The hopes of 250 unemployed miners who marched from Wales to lay their troubles before Premier Stanley Baldwin were shattered by an announcement that the Prime Minister would refuse to see a deputation representing the men.

Mr. Baldwin referred to the request of the miners for an audience to the Ministers of Health, Labor, Pensions and Mines.

Although disappointed, leaders of the miners contend that the object of the marchers was achieved as the march focused public attention on the mining situation. The men held a farewell demonstration at Trafalgar Square, and then entrained for Wales.

Pays Over Fifty-Two Millions

Calgary.—The Alberta Wheat Pool handled a total of close to 45,000,000 bushels of wheat in the report of D. D. Furdy, the manager, presented at the bushels of wheat from the 1925 crop, annual meeting of the pool. The total amount of payments to growers, it was stated, was \$53,361,096.64.

Corn From the Argentine

Port Arthur.—A shipment of fifty thousand bushels of corn from the Argentine is being unloaded for the Ogilvie Mills at Port William where it is to be used in the manufacture of poultry scratch feed. It is the first Argentine corn to be carried to the head of the Lakes for manufacture.

Winter Mail For Dawson City

"The Queen of the Yukon," a sister to Lindbergh's "Spirit of St. Louis," will this winter carry the mail into Canada's most northerly metropolis, Dawson.

Will Continue Family Settlement Scheme

More British Settlers To Be Brought Out Next Year

Calgary.—Arrangements have been made to continue the 2,000 British families settlement plan for 1925, according to information received by W. S. Woods, superintendent of the land settlement board.

Mr. Woods declared that a survey will be made immediately to ascertain the probable number of farms that will be available for the families coming out next spring. It will not be possible to estimate the number of families to be brought to Alberta until this survey has been completed.

It may be necessary for the Calgary office to send a representative to Great Britain to assist with the selection of families for this district. Mr. Woods declared, however, that most of the selective work would be carried on by the representatives of the department of Immigration already in the Old Country.

It is understood by local authorities that the settlers will begin to arrive in April and that all the methods followed in former years with regard to their welcome in the new land and their settlement upon farms which have reverted to the government will be carried out next year.

Bay Line Service Extended

New Train Will Carry Both Passengers and Freight

The Pas, Man.—On November 27, the train service on the Hudson's Bay Railway was augmented by putting in commission a way-freight with coach for passenger accommodation. The regular train colloquially known as the "Muskeg" will thereafter carry passengers and through freight only. The new train will leave The Pas every Sunday morning at 7 o'clock and will unload and pick up freight at all points along the line. This new service will materially facilitate business along the line in respect to both passenger and freight traffic.

Ship For Canadian Trade

Liner Laurentic Was Built Especially For This Purpose

New York.—Faith in the Dominion of Canada was expressed by C. V. Mitchell, vice-president for traffic of the International Mercantile Marine, at a banquet held on the new White Star Liner Laurentic, to mark her entry into the Atlantic trade.

The Laurentic, Mr. Mitchell said, has been built expressly for the Canadian trade, because the White Star Line believed Canada, her present greatness and her future. The Laurentic will take her place in the Canadian trade next spring.

To Retain Guillotine

Paris.—The guillotine, official instrument of execution in France, will still continue to function despite a movement to suppress the death penalty. A bill to do away with the death penalty was defeated by the close vote of 8 to 7 in the committee of civil and criminal legislation of Parliament.

Nominated Labor Candidate

London.—Reginald Francis Orland Bridgeman, embassy counselor in His Majesty's service, has been nominated as Labor candidate for the Unbridge division of Middlesex in the next election. He is a cousin of Viscount Lascelles, Princess Mary's husband and a cousin of W. C. Bridgeman, first lord of the Admiralty.

TURNER VALLEY OIL FIELD ROCKED BY EXPLOSION

Calgary.—Three men and two young children may die as the result of terrible injuries sustained when a terrific explosion, caused by the ignition of the gas flow from the Stockman's Well, rocked the entire north end of the Turner Valley Oil Field, about 45 miles south of here. Two other men were less seriously injured and are expected to recover.

The blast was a most spectacular one which could be seen for many miles around and recalled to mind some of the disastrous fires which have visited this oil field in the last few years.

Because of the great rapidity with which the flames spread, helped on by the fire's swift destructive course by the gas flow, it was thought useless to summon the aid of the Calgary City fire department, as apparatus and fire fighters would have arrived too late to be of any material assistance.

Situated away from the mass of derricks which sprinkle the central portion of Turner Valley, help was delayed in reaching the blazing well, and for some time the crew, surprised at their work in the derrick house, fought for their lives. Only after a thrilling struggle did they succeed in winning their way to safety through the blazing derrick timbers.

Three million feet of gas, high in gasoline content, was rising and flaring through the red hot casing top and the escape of the men who were compelled to leap for their lives was considered miraculous.

Sues British Government

Russian Manufacturer Claims Payment Of £10,000 Cheque

London.—The British Government has been sued to honor a cheque for £10,000 alleged to have been endorsed by the Government's diplomatic agent in Moscow in 1918 for a Russian fur cap and eventually smuggled out of Russia after the revolution concealed in a man's boot.

It is claimed that the cheque was endorsed by the British agent because he wanted Russian currency, and that he obtained rubles for it.

The cheque was passed to Hirschberg, a textile manufacturer, who carried it for safety in his cap and afterward sold it to Beneslonowitz, who smuggled it out of Russia in the sole of his boot after the Bolsheviks had confiscated a forest for which he had paid £25,000.

The Government disputes the allegation that the cheque was signed by the British Crown.

Reluctant To Build Cruisers

Britain Hopes Naval Limitation May Yet Be Reached

London.—The British Government is reluctant to lay down more 10,000-ton cruisers at present, in the hope that naval limitation may yet be reached. Rt. Hon. W. C. Bridgeman, First Lord of the Admiralty, told the House of Commons recently.

Replying to a question in the House, Mr. Bridgeman said that a new situation had arisen owing to the fact that, although Great Britain's proposals for limitation in the number of large 10,000-ton cruisers had not been agreed to at Geneva, the discussion led the hope that a limitation might be reached. In these circumstances, he added, the British Government was reluctant to lay down any more of these cruisers at present.

Neglect Was Costly

Montreal, Que.—This city's failure to sand the sidewalk at an intersection resulted in the city's condemnation to pay damages of \$1,000 to Max Shor for injuries sustained by his minor daughter, Sophie, who slipped and fell on the sidewalk and suffered a fracture of the left ankle.

Population Of U.S.

Washington.—The United States will have a population of about 124,000,000 about 1920, Census Director Stuart predicted in his annual report to Secretary Hoover. The 1920 census, Mr. Stuart said, indicated a population of 105,710,620 for continental United States.

Highest Honors in Police First Aid

The highest honors in first aid work among police teams in Canada this
Tiger were carried off by the Angus Works Police Team No. 1 of the
Canadian Pacific Railway in winning the Sherwood Police Championship,
in open competition with all uniformed first aid police teams throughout the
Dominion. This team also won the Shaughnessy Shield, representative
of the police championship of eastern Canada.

The awards and medals were presented recently in the board room of the
Canadian Pacific in Montreal in the presence of E. W. Beatty, chairman and
president of the C. P. R. and a representative gathering of the Company's officials,
including Grant Hall, senior vice president, A. D. MacTier, vice president of
eastern lines and J. J. Scully, general manager of eastern lines. The Sher-
wood Trophy was presented to the members of the team by Col. D. T.
Irwin, C.M.G., past president of the St. John Ambulance Association and
connected with it since its inception. The various officers present expressed
their congratulations to the Angus team for the honors brought to them-
selves and to the railway company in general. During the same presentation
several other Dominion awards were presented to Canadian Pacific teams.
These included the Montclair trophy, representing the open champion-
ship of the Dominion which was won by the Chapleau Ontario team; the
Wallace Nesbitt Trophy, symbolic of the open railway championship of
Canada, the states of Maine and Michigan, won by the Toronto Freight
Office Team and the Ontario Provincial Championship also won by the
Toronto Freight Office.

Members of the team are from left to right back row: Constable A. Allan;
Inspector J. MacFarlane and Constable E. Sharpe. Front row: Constable
T. O'Neill, seated behind the Shaughnessy Shield and Constable F. Pettit,
captain of the team who is seated behind the Sherwood Shield. The cup in the
centre is the Johnson Cup representing the championship of Angus Works.

The Postmaster's Tenuity.

For weeks past, rats had
been playing havoc in a post
office in the East; but when
at last they began to invade
the drawers in which were
kept stamps and postal or-
ders, the postmaster deemed
that the time had come for
him to communicate with his
chief. Accordingly he did so.

The chief replied, saying
that he had referred the mat-
ter to his chief, who, in turn,
wrote to his chief; and so it
went on until, some 6 months
later, the postmaster received
official permission to keep two
cats.

For a month all went well; then
this ominous message was forward-
ed to head-quarters: "I have the
honor to inform you that the senior
cat is also without leave. What
shall I do?"

A week passed, but no answer
arrived. Unable to wait longer,
the postmaster took the matter into
his own hands, and wrote: "I
have promoted the junior cat, and
have taken into government ser-
vice a probationary cat on full rat-
ions."

High officials, it is said, are still
trembling at the man's audacity.

CHAPTER XII.—Continued. . . .

Helmi shuddered with the ugliness of it all, and looked wistfully after the train as it went on across the bridge to Mine No. 2. But when she looked up her heart was quickly lifted, for above her were the eternal hills of God, mildly purple, although the sun was so bright in the valley. They reminded Helmi that the ugliness of the scene below was a recent, temporary thing that could be speedily changed. The hills in their beauty, their strength and endurance were eternal. The rain and the wind had beaten on them for long centuries; the whole artillery of the skies had been marshalled against them, yet they had not been moved. The strength of the hills was in Helmi's heart when she walked across the narrow pavement and boldly asked for a job at the Elite Boarding House.

CHAPTER XIII.

Spring had come with its carpet of flowers, its radiant days and velvety black nights, shimmering with stars and music with the sound of rushing waters, for the snow of the mountains filled the river's course with a foaming flood on whose surface logs rolled, and sometimes broken trees.

The sander was covered with wild grass, through which the automones looked up blue-eyed and shy through their turrey caps, shading in color from palest pink through mauve into purple. Helmi had never seen them before, and wondered if this was their first time to come. The butterflies which followed were like those at home, and so were the cowslips—and the wild roses! The women laughed at her delight.

"Gez Whiz!" said Mrs. Turner, who lived near the boarding-house. "It doesn't take much to please the Finn girl. A day at a circus would kill her for sure if she makes such a fuss over a few little wildflowers."

The coming of Spring with all its beauty brought no improvement in the littered yards, where the condensed milk tins mounted higher and higher. Blinds still hung crooked, boards in the verandahs were still broken.

"There's no use putting on curtains," said Mrs. Turner, apologetically.

Is Your Stomach Troubling You?

Hamilton, Ont.—"Dr. Pierce's Golden Medical Discovery is a remedy for stomach and liver trouble that I can highly recommend. Before I took it I would have spells of intense suffering, but through its use, gained in weight and health, and feel fine. My friends even commented on my changed appearance."

"my complexion was better and my eyes brighter."—Mrs. Caroline Nelson, 74 Steadman St. E.

"People in every walk of life today say Dr. Pierce's Golden Medical Discovery has restored them to health. It is a reliable medicine made from roots and herbs, sold by druggists, in both fluid and tablet form. Send 10¢ for trial package, tablets to Dr. Pierce's Laboratory in Bridgeburg, Ont."

Old Prophecy Deciphered

Medieval Magician Predicts Disappearance of Britain in 3422. Paris will be wiped out in the year 3422 and Britain will disappear beneath the waves that she has ruled so long, according to a prophecy of the medieval magician Nostradamus, that has just been deciphered by the Ayar Society.

The destruction of Paris will be accomplished by "air vessels" that will hover over the city dropping death and annihilation, says the ancient prophecy. Nostradamus predicted the French Revolution and two hundred and fifty years before the beheading of Louis XVI. he described with the minute details the clothes the King would wear when he was to mount the scaffold.

Nostradamus presented his prophecies to Catherine de Medici. The cipher appears to have told a consecutive story, harmless and innocuous. Now that the key has been found, a deeper meaning has been discovered.

Chest Colds Yield to this Treatment

Redden chest with hot wet towels; rub on—apply thickly—**VICK'S VAPORUB** OVER 12 MILLION JARS USED YEARLY

the question "What is Home Without a Mother?" the other one gave strange but definite answer, "Peace, Perfect Peace." It was here that the men at their meals, carried in on huge trays, while Helmi handed with all the grace of the women of the East who carry their water-bottles on their heads.

After the meals were over and the tables cleared the men played cards on the tables. Helmi's manner was detached and aloof. She was remembering Aunt Luke's advice, which was easy to follow in every case but one. Young Jack Doran, who washed before each meal, flinging the water out of the basin with a circling motion, always looked so clean and fresh when he came in that Helmi could not refrain from looking at him. His hair was dark brown, and marcelled itself in spite of its regular washings. Mrs. McMann had said it was a pity to see such lovely hair wasted on a man. Helmi was careful not to show her admiration, but it was hard to keep from looking at Jack. His face shone out clear among the grimy faces around the table, and though he called her "Finn-girl" it never sounded fresh. He asked her to go with him to a dance one Saturday night at the hotel, and although she wanted to go, for she loved to dance, by some perversity of spirit she refused.

"Finn, you're foolish," Jack said, "you should take your fun as you go. It's the only way to get any." But Mrs. McMann commanded Helmi by telling her the men would think all the more of her if she didn't jump at the first chance she got to go to a dance. Mrs. McMann quoted many instances in her own past life to prove it. "The golden rule is the most admirable," she said was a safe rule for any girl. Helmi did not see that it mattered much about being seen once more when three times she was seen carrying trays, and anyway, she didn't care whether she was admired or not—but she wanted to dance.

Helmi spent a dull evening in her room, listening to the ribbony voice of the fiddles, which came through the open window, and wondering who Jack Doran was. She was sure that it mattered to her she told herself over and over. She wrote a long letter to her sister Anna in Finland, and put a five-dollar bill in the letter for her grandmother, and tried to feel she was a good girl to stay away from home—she had failed.

Mrs. McMann told the other women that she was glad to be able to say of Helmi that she knew how to keep the men in their place; how when Bill Larsen, the bartender, who was a good fellow too, tried to get fresh with Helmi because he knew her language, she threw a plate of soup at him—good soup it was, too—but Helmi was just that kind, the first thing that came to her hand she used.

No one had tried to get funny with her since, "and" Mrs. McMann continued, "she's a great girl for her English lessons, off every night, as

The "Flu" LEFT HER WITH A VERY WEAK HEART

Mrs. Beulah Demoss, Pleasant River, N.B., writes:—"Having suffered with the 'flu' a few years ago, I was left with a very weak heart."

"I was unable to go about, and could not do my housework. 'I could get dizzy spells and would have to go and lie down. 'I could not sleep at night as the least little noise would wake me up. 'I tried different kinds of medicine, but they seemed to do me no good. 'A friend recommended

MILBURN'S HEART NERVE PILLS

I have used five boxes and am much better; do not get those dizzy spells, and can do my own work as well as ever."

Price 50c. a box at all druggists and dealers, or mailed on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

soon as her dishes are done, to the teacher over the river."

Helmi found life at the mine full of interest, too. From her window, which she washed clean the first day she occupied the room, she could see the mountains, and they answered to her every mood. When she was happy they looked up; when life was dull and gray, the mountains told her it didn't matter much—in a hundred years it would be all the same.

Medical Missionary Returns To India

Seventy-Two-Year Old Woman Resumes Duties After Fortieth

Although she has reached the age of 72, Dr. Anna S. Kugler, the first American woman medical missionary to India, has by special dispensation of the Board of Missions of the United Lutheran Church in America, been permitted to return as superintendent of Gunter Hospital. She built and developed this institution in the 44 years she has spent in India.

Returning to America on furlough in 1925, much broken in health, Dr. Kugler, then 70, was due to retire. But during the past summer the board granted her urgent request that she be permitted to return.

During her stay in America, Dr. Kugler received individual gifts totaling more than \$2,000, which she declared would be used to purchase new equipment for her hospital.

Dr. Kugler went to India in 1883, when even men medical missionaries were scarce. In 1904 she received from the Viceroy of India the silver Kaiser-Ind medal in recognition of her services to the people of India. Some years later the Government again honored her by adding a bar to this medal.

Little Helps For This Week

"It doth not yet appear what we shall be."—1 John II.

Have no more old, amid life's petty strife.

Some pure ideal of noble life That once seemed possible? Did we

The flutter of its wings, and feel it near.

And just within our reach? It was; and yet

We lost it in this daily ray and fret; And now live life in a vague regret!

But still our place is kept, and it will wait.

Ready for us to fill it soon or late.

—Adelaide Anne Procter.

There is no joy, there is no beauty, there is no glory of living or acting, no supreme moment you can picture in your dreams, that is not in your life as God sees it, stirring in the instants you have of it now; waiting for you in the glorious fulfillment that shall be there.—Adeline D. T. Whitney.

Rule Over Jungle Capital

King of French Protectorates Lived in Lavish Luxe

Twenty years ago a king stood on a balcony of a hotel in Marseilles and a flung handfuls of gold and silver coins to the crowd below. "Vive la France!" he shouted as he scattered a fortune to the winds.

"Long live the king," screamed the appreciative crowd as it fought for the coins.

He died to be 87 years old, and died the other day down in Cambodia, Indo-China, the Hindu French protectorate where he ruled. King Sisowath had ten official wives, a harem of 500 beauties, 1,000 sacred dancing girls, and 146 children.

He lived in lavish luxury, ruled in title only, and only once left his ill-fated kingdom. He was in 1905, when he toured France dressed in his costume of state—an old derby, hat surmounted by a \$100,000 diamond, knickerbockers of gaudy silk, an ancient full dress coat and old tan slippers.

Holds Third Place

The Canadian poultry and egg production has reached a value of over 78 million dollars a year, according to a statement of the Hon. John S. Martin, Minister of Agriculture for Ontario, in the Poultry Supply Dealer. Ontario is by far in the lead with a production of over 32 million. Quebec is next with 13 million, and Saskatchewan third with 11 million dollars a year of poultry and eggs produced in a year.

Colonizing the West

464 Families Are Placed On 119,633 Acres of Land In Western Provinces

During the first nine months of the present calendar year the Canada Colonization Association placed 464 families on 119,633 acres of land in the west. There were 133 placed in Manitoba on 26,810 acres; 175 families in Saskatchewan on 50,810 acres; 141 in Alberta on 38,421 acres, and 15 in British Columbia on 3,591 acres. The Association is a subsidiary of the Canadian Pacific Railway Department of Colonization and Development.

FOR MOTHERS OF YOUNG CHILDREN

Mothers are quick to praise anything which brings health and comfort to their little ones—any medicine that will make the baby well and keep him well will always receive hearty recommendation from the mother. That is why Baby's Own Tablets are so popular. Thousands of mothers, throughout the country, not only use them for their own little ones but are always delighted to be able to recommend them to other mothers. Thousands of mothers have proved Baby's Own Tablets to be without an equal in relieving their little ones of any of the many minor ailments which arise out of a derangement of the stomach and bowels. Baby's Own Tablets are the ideal laxative—easy to take but powerful in action. They banish constipation and indigestion; break up colics and simple fever; expel worms and make the teething period easy. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The J. Williams Medicine Co., Brockville, Ont.

Women are preferred to men as peat divers at Takoto, Japan, because it is claimed they can stay under water longer.

Corns disappear when treated with Holloway's Corn Remover without leaving a scar.

We hope the firms which sell saxophones on instalments are very prompt about taking back when the installments fall behind.

Quickly Erases Irritated Throats

Simply swallow a slip of "Buckley's." You'll bring a sore, inflamed throat, swollen and tender, back to normal. No matter what may be the cause of throat trouble, the first dose clears and soothes the throat. Three doses in a 15-cent bottle are enough to cure and guarantee.

It is a French remedy, and it is a French remedy.

Luxuries Once But Necessities Now

PRACTICALLY any Canadian citizen may own today an automobile possessing elements of beauty, style, comfort and efficiency which no amount of wealth could have commanded a dozen years ago.

For the automobile industry has outgrown its original function as a supplier of transportation, and has in an amazingly short time, brought about the refinements which are exemplified in the present-day General Motors car.

Since its foundations first were laid sixty years ago, this institution has believed that every Canadian has a right to the best his country produces, has a right to satisfy his sense

of beauty, his desire for comfort, his need for dependability.

General Motors has at its command the master minds of the industry. It has the finest automotive research laboratories and the greatest automobile proving grounds in the world, wherein have been pioneered and developed some of the industry's most revolutionary advances.

And General Motors has used its prosperity and success unstintingly in improving the quality and increasing the value of its products.

It is thus that General Motors of Canada has played its part in translating once-inconceivable luxury into terms of every-day necessity.

Alberta's Crop Movement Helps Vancouver.

"The Alberta crop movement is the greatest factor in Vancouver's prosperity so far as foreign trade is concerned," stated A. W. Dollar, of Vancouver, president of the Canadian Chamber of Commerce, who visited in Edmonton last week. "Between Oct. 1 and the end of Jan. next, it looks to me as if Vancouver will move between eleven and twelve million bushels of wheat, practically all of which will be from Alberta," added Mr. Dollar.

Regimental Piping Awards Announced

Inter-Regimental Trophy presented by E. W. Beatty, president of the Canadian Pacific. J. L. Charles Dunbar, winner of the trophy. J. Piper Neil Sutherland, winner of second trophy.

As a question of military status was involved in the regimental bagpipe competition held at the Banff Highland Gathering in September, the final decision as to the holders of the trophies was referred by mutual consent to the Minister of National Defence, under whose authority the competition was held. The decision has just been given by Major-General Thacker, Chief of General Staff, to the effect that the trophy given by Mr. E. W. Beatty, chairman and president of the Canadian Pacific Railway, as originally offered to pipers from Highland Regiments, be awarded to Lieutenant Charles Dunbar, D.C.M.—Argyle and Sutherland Highlanders of Canada, Hamilton, Ontario—this being accompanied by a cash prize of \$100.00. Under this

rule Pipe-Major McPherson, of the Toronto Scottish Regiment, ranks for second prize of \$50.00 and Pipe-Sergeant Hugh McBeth, of the Calgary Highlanders, for third prize of \$25.00. Piper Neil Sutherland, of the Twelfth Signal Battalion, Canadian Corps of Signallers, Regina, is awarded the first place in the competition for a trophy of equivalent value as Champion Pipe Player, Canadian Militia, the trophy to be held by the contestant who wins it in two successive competitions and the trophy remaining the property of the unit to which the winner belongs. Neil Sutherland receives \$100.00 cash as winner. Second in this competition is Pipe-Major James Hamilton, of the Canadian Fusiliers, London, Ontario, who receives a substantial cash prize.

Stony Plain and I tricit. 23 DAYS TO CHRISTMAS.

Reeve McKinlay and several of the Inga Councilors were in attendance in Edmonton, last week, of the convention of officers of municipal districts.

Rev Mr. Cushing of Edmonton assisted at the evening service at the United Church on Sunday last.

Mr. Charles Ries arrived on Tuesday from Vernon with a carload of fruit.

The skating party on Friday night at Muir Lake was quite a success, as also was the dance which followed, first-class music having been provided. A motor party from the City was present.

A dance was given Friday night at Sand Hills Schoolhouse, for the purpose of raising funds for the Christmas treat for the children. The affair drew the usual good crowd.

The Post office authorities ask that those sending parcels thru the mails at the Christmas season should use particular care with the packing, as owing to the big rush at this particular time, packages are exposed to extra risk of breaking.

Enders will shortly be called for carrying the mails on a new route embracing Golden Spike and Holborn postoffices.

M. M. Mecklenburg, the well-known optical specialist, will be at the Royal Hotel, Stony Plain, on Friday, November 25th. See him and see well.

The St. Matthew's
Ladies' Aid will hold
Their Annual Bazaar at
Oppertshausen's Store,
Sat., Dec. 10, at 2 P.M.

Alberta Grand Champ. Steer Frings High Price.

The grand champion steer at Toronto Royal-Winter fair, "Choice U.A." a Shorthorn bred and exhibited by the University of Alberta, sold at auction to a Toronto department store, following the show, for the record price of \$1.65 per pound, or a total of \$2219.25. The steer will be exhibited at the Chicago International Livestock Show before being delivered to the Toronto purchaser. Last year's grand champion steer sold for 56 cents per pound; a record at that time. It sold to a Toronto firm.
